THE SCULPTURE BRAND

Our reputation is our number one asset. Our brand identity symbolizes and embodies our reputation, our brand experience and our promise. It is an asset that must be managed carefully. This manual will be the guide to a consistent and unified expression of our brand.

Consistency is a key element in building our brand. By observing these three simple rules we can ensure a consistent brand image.

- 1. Our logo is comprised of three elements: the symbol, the word mark and the corporate descriptor: these must only be used as specified in this brand manual.**
- 2. Our brand style standards (typeface, color, scale, imagery, etc).**
- 3. The specifications in this manual are to apply uniformly to all aspects of the brand.**

This brand manual reflects our commitment to safeguard our reputation through a consistent brand identity.

THE SCULPTURE VOICE & TONE

Sculpture's voice is that of a slightly older friend. It should feel akin to a conversation at the end of a long but fulfilling day, maybe over a drink or bite to eat. We are mature, but may make you laugh from time to time with a wry observation about the way the world works. We are someone you're comfortable sharing your struggles with, knowing that you'll receive wise and empathetic counsel from another who's been there. We are honest enough to tell you where you need to improve, dedicated to helping you get there, and ready to celebrate with you when you do. We hope you breathe a little easier knowing that we are always in your corner, just a message away. You can tell that we believe in your vision and take pleasure in watching your business flourish.

In conversation:

- We use simple sentences.
- We don't waste your time.
- We avoid marketing jargon and corporate-speak.
- We listen and understand.
- We demonstrate our respect for you and your business.
